

Participants Needed for Research Study on Biomechanics of Walking.

Principal Investigator: Dr. Babak Hejrati, Department of Mechanical Engineering

The purpose of this study is investigating the effects of haptic feedback on gait.

You May Qualify If You

- Have taken COVID-19 vaccine already.
- Are between the ages of 55 and 75.

Experiment details

- Takes less than an hour.
- \$20 compensation.
- Involves walking for 15-20 minutes.

Location: Depending on the weather and other conditions, outside of Advanced Manufacturing Center (AMC), or in Barrows Hall, or in Little Hall.
