

Participants Needed for Research Study on Biomechanics of Walking.

Principal Investigator: Dr. Babak Hejrati, Department of Mechanical Engineering

The purpose of this study is investigating the effects of haptic feedback on gait.

You May Qualify If You

- Have taken COVID-19 vaccine already.
- Are 60 years old or above.

Experiment details

- Takes less than an hour
- \$40 compensation
- Involves walking for a few minutes

Location: University of Maine Campus, Orono, ME- outside of Advanced Manufacturing Center (AMC), or in Barrows Hall, or in Beryl Warner Williams Hall.
